LeetCode Codolio

EDUCATION

Indian Institute of Information Technology Bhagalpur **2024 – 2028**
B.Tech in Computer Science and Engineering *CGPA: 8.06/10*

TECHNICAL SKILLS

Languages: C++, Python, Dart, SQL
Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, Mongoose
Databases: PostgreSQL, MongoDB, Firebase, Firestore
Mobile: Flutter, Riverpod, Provider
CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems
Developer Tools: Git, GitHub, Postman, Linux, AWS EC2

EXPERIENCE

Flutter Developer **Jul 2026 – Aug 2026**
e-Shravani (Government of Bihar) Live App *Bhagalpur, Bihar*

- Contributed to the production **e-Shravani mobile application** developed by IIIT Bhagalpur with the Government of Bihar, reaching **4,500+ Google Play downloads**.
- Developed the **SOS emergency module** using Flutter and integrated backend services through **REST APIs**, asynchronous requests, and **JSON parsing**.
- Enhanced **Hindi/English localization** across Lost & Found and Public Utility modules while maintaining consistent UI and navigation across application screens.
- Built and refactored **reusable Flutter widgets and components**, improving code reusability, responsive layouts, navigation, and overall UI consistency.

PROJECTS

Yoga & Wellness Application Frontend Backend *Flutter, Node.js, Express.js, MongoDB, JWT*

- Built a **full-stack wellness application** using Flutter with a **Node.js/Express.js backend** and MongoDB for persistent user and application data.
- Designed **RESTful APIs** using Express.js, Mongoose, and MongoDB for authentication and data management with structured request/response workflows.
- Implemented **JWT-based authentication and authorization** with protected API routes, along with **Google Authentication** for seamless user sign-in.
- Integrated **Firebase Cloud Messaging (FCM)** for push notifications and developed reusable Flutter components for responsive frontend-backend workflows.

Jharkhand Societal Innovation Platform Source Code *Flutter, REST APIs, JSON*

- Developed a **Flutter-based mobile platform** for the **Smart India Hackathon 2026** to enable structured reporting and discovery of local societal challenges.
- Designed **problem submission and tracking workflows** using reusable UI components, responsive layouts, and structured navigation.
- Integrated **REST APIs and JSON data exchange** for frontend-backend communication, request handling, response parsing, and dynamic data rendering.
- Implemented a **modular Flutter UI architecture** with reusable widgets to improve maintainability, consistency, and scalability across application features.

ACHIEVEMENTS

- Solved **600+ Data Structures and Algorithms problems** across LeetCode, CodeChef, and GeeksforGeeks.
- Achieved a maximum **CodeChef rating of 1559** CodeChef Profile.

CERTIFICATIONS

Machine Learning and Deep Learning in Agriculture and Biomedical Engineering Credential **May 2026**
IIIT Bhagalpur – Machine learning and deep learning applications in agriculture and biomedical domains.

Maximize Productivity with AI Tools – Google (Coursera) Credential **Jan 2026**
Practical applications of AI tools for research, productivity, content generation, and workflow automation.

EXTRA-CURRICULAR ACTIVITIES

Unnati Welfare Society – Administrative Manager **Jun 2025 – Sep 2025**
Bhagalpur, India

- Coordinated **volunteers and educational initiatives**, supporting the student-focused programs in Bhagalpur.
